Kalamazoo, MI • (269) 501-5405 • ibrahimitani0@gmail.com • [linkedin.com/in/ibrahimitani0](https://www.linkedin.com/in/ibrahimitani0) • <https://ibrahimitani0.github.io>

Software Engineer | Enterprise Applications

Software Engineer with 4+ years of experience designing, developing, and modernizing enterprise applications and technology platforms using Java, Spring Boot, Angular, Oracle SQL, and REST APIs. Experienced delivering workflow automation, cloud modernization, CI/CD pipelines, production support, and business reporting solutions across financial services and manufacturing environments. Skilled in collaborating with business stakeholders to deliver scalable, secure, and maintainable enterprise solutions using Agile and modern engineering practices.

SKILLS

Programming Languages: Java, TypeScript, JavaScript, SQL, HTML5, CSS3, SCSS

Frameworks & Libraries: Angular, Spring Boot, JPA/Hibernate, Kendo UI, Angular Material

Backend & APIs: REST APIs, Microservices, JUnit, SMTP Email Services

Databases: Oracle SQL, PostgreSQL, MySQL, Microsoft SQL Server, MongoDB

DevOps & Cloud: AWS, Docker, Azure DevOps, Maven, CI/CD

Tools: ServiceNow, Git, GitHub, Postman, Power BI, SharePoint, Visual Studio Code

Concepts: Object-Oriented Programming (OOP), Design Patterns, Software Architecture, SDLC, Agile Methodologies

WORK EXPERIENCE

Fouad Zeaiter and Associates - Ameriprise Financial Services, LLC

Portage, MI

Financial Services Operations & Technology Associate • Part-time

Mar 2026 - Present

- Assisted with the migration of financial plans from NaviPlan to MoneyGuide, validating data and supporting platform transition activities.
- Supported financial advisors by providing technology support, coordinating client service activities, and maintaining account and workflow information.
- Maintained client documentation and portfolio data using enterprise CRM systems, AdvisorCompass, and Excel, ensuring data integrity and regulatory compliance.
- Improved operational workflows by leveraging Microsoft Copilot to streamline documentation and increase productivity.
- Ensured the accuracy and consistency of client and financial planning data across enterprise systems.

TATA Consultancy Services

Plymouth, MI

Software Engineer

Jan 2021 - Apr 2025

- Developed and enhanced enterprise applications supporting 65,000+ users using Angular, Spring Boot, and Oracle SQL, delivering business reporting and analytics solutions.
- Automated enterprise workflows using Spring Boot REST APIs, Java Servlets, JPA/Hibernate, Oracle SQL, and Angular, integrating email notifications that reduced manual processing by 2 hours per workflow cycle.
- Designed reporting dashboards using Angular, Kendo UI, and Power BI, enabling analytics for 50+ business users through automated CSV processing workflows.
- Migrated 6 enterprise Java applications from WebSphere/Tomcat to AWS, improving deployment reliability through Azure DevOps CI/CD, Maven, and JUnit testing.
- Modernized a legacy Corporate Finance Portal by migrating workflows to the Mendix low-code platform, redesigning domain models, and integrating SharePoint document management and automated notifications.
- Supported enterprise applications through ServiceNow incident management by analyzing user-reported issues, troubleshooting defects through log analysis and code reviews, implementing fixes, and coordinating QA testing and production deployments.

TECHNICAL PROJECTS

Vertex – Business Intelligence Platform (In Progress)

Angular • Java • Spring Boot • PostgreSQL • Power BI

- Developing a full-stack business intelligence platform using Java, Spring Boot, Angular, PostgreSQL, and REST APIs, implementing secure authentication, customer and project management, and inventory tracking.
- Integrating Power BI dashboards to transform operational data into interactive reports and actionable business insights.

PageFlipper – Library Management System

Angular • Spring Boot • MySQL

- Developed a full-stack library management application using Angular, Java, Spring Boot, JPA/Hibernate, REST APIs, and MySQL, implementing role-based authentication for Admin, Librarian, and User roles.
- Built features including book search, ordering, inventory management, community posts, reviews, and a virtual assistant chatbot while designing a relational database supporting 20+ entities for authentication, inventory, orders, user engagement, and analytics.

PokéCenter – Progressive Web App (PWA)

Angular • TypeScript • RxJS • Chart.js • REST APIs

- Developed a responsive single-page application using Angular, TypeScript, RxJS, and REST APIs, implementing dynamic routing, reusable components, and asynchronous data handling.
- Built features including an interactive Pokédex, team builder, trainer guides, and progress tracker, delivering a responsive user experience across desktop and mobile devices.

SmarCart – Cloud E-Commerce Platform

PHP • JavaScript • MySQL • AWS

- Developed and deployed a cloud-hosted e-commerce application using PHP, JavaScript, MySQL, and AWS, implementing user authentication, product catalog management, shopping cart, checkout, and order processing while leveraging Amazon EC2, S3, Lambda, and Elastic Load Balancing for scalable hosting, storage, serverless processing, and high availability.

EDUCATION

Bachelor’s degree, Computer Science

Western Michigan University Aug 2017 - Apr 2020

Bachelor’s degree, Banking & Finance — International Business

Lebanese American University Aug 2010 - Apr 2015

CERTIFICATIONS & AWARDS

Mendix Rapid Developer Certification

Mendix (Siemens) Nov 2023

Service & Commitment Award

TATA Consultancy Services Jan 2024

Best Team Award

TATA Consultancy Services Oct 2023

On the Spot Team Award

TATA Consultancy Services Dec 2022

PROFESSIONAL DEVELOPMENT

TATA Consultancy Services

Generative AI for Software Engineering Nov 2024

Enterprise LLM architecture, prompt engineering, chatbot integration, API connectivity, and AI-assisted software development.

TATA Consultancy Services

Cybersecurity Oct 2024

Enterprise secure coding practices, application security principles, vulnerability prevention, data protection, anti-phishing awareness, social engineering threats, and cybersecurity best practices.
